

**RETHINKING MARXISM - AUTHOR CHECKLIST FOR FINAL MANUSCRIPTS**  
(see [author guidelines.pdf](#) for more detailed instructions on each item)

Please submit final manuscripts using the following ordering of materials:

- title page including author contact information and bio (see below for what to include)
- abstract (no more than 150 words) and key words (no more than 5)
- text body
- any acknowledgments, references, and endnotes (in this order)

*(Note: use MS Word's "insert endnote" function; you may also convert any footnotes to endnotes.)*

- tables, figures and other illustrations, and captions for figures and illustrations should go at the end of the document (No need to indicate your desired placement within the body of the manuscript; the publisher will decide the appropriate placement as part of the typesetting function, though referring to tables and figures within the text of your manuscript is helpful to connect them for the reader.)

*Final manuscripts should be saved as "YOURLASTNAME-final" and be accompanied by:*

- email, phone number, and postal addresses for each author
- copies of all permissions for illustrations or other attributable materials not owned by the author

*(If you have not yet obtained the necessary permissions, or anticipate any difficulty in obtaining permissions, please make us aware of this ASAP!)*

- a brief biographical statement for each author (no more than 75 words)

*Instructions for copyright form (MUST be submitted before article can be scheduled):*

- form available at [RM-Copyright.pdf](#)
- copyright form should be signed by the corresponding author (if multiple authors, no need for all authors to sign)
- submit your completed form by fax or post to RM's publisher, Taylor & Francis, according to the instructions at the bottom of page 1 of the form

*(Scanned forms may be sent to [editorialoffice@rethinkingmarxism.org](mailto:editorialoffice@rethinkingmarxism.org) for our records, but the original form should be sent directly to Taylor & Francis.)*
